

Functionality

with uncommonly beautiful design

Star Building Systems
RECREATION FACILITIES

A Star Building System is compatible with any conventional exterior...

The Cheer Center
Grove City, Ohio
Maverick Builders, Inc., Builder

Recreation facilities vary greatly in design and function. Space, maintenance, durability and cost are major concerns when planning any recreational or sports facility.

Making these concerns minor is what Star Building Systems has been doing for almost 90 years, by providing attractive, functional, expandable recreation buildings.

From small gyms to large clear span arenas, a Star building will meet your needs and exceed your expectations. Each Star building is individually designed and engineered to meet your exact requirements as well as local building codes. Column-free interiors can provide high ceilings and uninterrupted floor space. All the open space you need as high as you need it.

Your Star building is designed with economy and flexibility in mind and can be customized to fit your special needs, without any compromise in building function and appearance. And your Star building blends beautifully with any conventional exterior. A mixture of glass, brick, stone and other veneers will accent your building's beauty.

Future maintenance and energy cost considerations are a major concern and they receive major attention. Performance-proven quality materials used in manufacturing insure savings on future upkeep and maintenance. A Star building offers optimal efficiency and is termite and fire resistant. When it's time to expand, Star can provide the answers. Star Building Systems provide the flexibility to add on in an easy and attractive way.

So, when it comes to designing and building your new recreation facility, or expanding your current facility, call Star Building Systems. Your local Star Builder can provide a single source of responsibility and consult with you about site selection, topographic conditions and interior and exterior design to meet your long term objectives.

Call Star Buildings at 1-800-879-7827 for the name and telephone number of a Star Builder near you. Or visit our website, www.starbuildings.com, to learn more about Star Building Systems.
