Building Relationships

since 1927

Welcome

Star Building Systems provides quality custom metal buildings to customers across the entire United States and in many foreign countries. No matter what the need, from a small, standard building to a large, complex structure, Star can provide the building solution to satisfy your requirements.

- Commercial facilities
- Manufacturing plants
- Institutional development
- Recreational buildings
- Aviation/hangars
- And much more

Star has a reputation for quality. Quality products, quality construction and quality relationships. The end result for you is a building solution that meets and exceeds your expectations, from start to finish.

Star Building Systems has a philosophy that is unique in the metal building industry. We believe that our reputation and success are based on the strong relationships we've forged with our builders, and the reputation and success of those builders in their local markets. That is why we go to market through our Builder network.

Star and Star Builders share a mutual desire to excel. To offer better solutions, quality service and to build enduring relationships with our customers. Star can offer you the tools to shine with an extensive support system that includes:

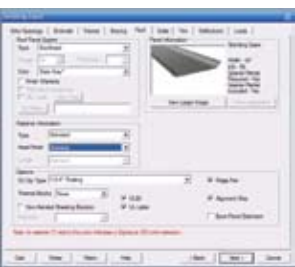

- A state-of-the-art computerized pricing, design and order processing system
- Online pricing system for low complexity buildings
- Personalized service, both in-house and in the field
- Strategically located manufacturing plants
- Strong national industry presence
- Innovative marketing support programs
- Green solutions

These tools, coupled with Star's ongoing commitment to quality and service, provide you with a unique opportunity. At Star, we strive to be successful in the relationships we foster as well as in the construction projects we undertake. Our buildings last and so do our relationships. Let Star know if you're ready to take the next step.

Need a Competitive Edge?

The Star Builder System (SBS) is proprietary estimating pricing software available exclusively to Star Builders. SBS is an intuitive, design driven pricing program developed to improve and expedite the estimating of Star Buildings.

Created with the Star Builder in mind, the software utilizes the same design engine as production software for maximized thoroughness and efficiency. The software not only collects data to ensure accuracy of order placement, but enables the Star Builder to customize quotes to meet their clients' requirements and budget.

With SBS, the Star Builder has the edge needed to lead in a competitive market with the ability to:

- Input multiple buildings
- Price various options quickly, without in-house assistance
- Generate wireframe sketches to view input and make changes
- Generate multiple CAD drawings for architects or presentations
- Generate design reports for foundation engineers
- Generate erection hours estimates

Need a Simple Job Done in a Flash?

FASTAR is Star's solution to low complexity projects. It's fast. It's easy. It's dependable. It's only available to Authorized Star Builders. FASTAR is an online ordering program available at www.StarBuildings.com.

Follow these simple steps:

- Log in
- Choose your endwall width and frame type
- Choose your sidewall length and girt condition
- Select your eave height
- Select your roof and wall panels
- Make your bay choice
- Identify the pitch of your roof

Then click DONE. Your quote is instantly generated. Your building order is processed. Yes! It's that easy!

Star's Affiliations can be Your Affiliations

Star Building Systems is a division of NCI Building Systems, Inc. (NYSE: NCS), a family of companies and people dedicated to delivering a higher standard of performance to you and your business. NCI Building Systems is the largest integrated manufacturer and marketer of custom designed metal building systems, metal building components and metal coil coaters in North America.

Some products offered through Star are manufactured by Star's sister companies, MBCI, IPS and DBCI. Star Building Systems is proud to align itself with these companies.

Want a Gold Star for Building Green?

Construction trends are changing. And they're changing for the better. Energy efficient construction is the key to a long lasting structure. It's the key to a long lasting future. Star is at the forefront of the green movement with its product offerings and processes.

Did you know?

- Metal is the most recycled material in the United States (American Iron and Steel Institute)
- Star's metal roof and wall panels contain a minimum of 25% recycled material
- Star's Insulated Metal Panels—provided by IPS—can substantially increase R-values
- Metal construction creates less waste when compared against traditional building materials
- Retrofit roofing used over existing roofs diminishes roofing waste, thereby reducing waste to landfills

Star's green products include:

- Insulated Metal Panels (IMPs)
- Retrofit Roofing
- NuRoof®
- Cool Roofing Colors
- Long Bay® System

Whether your customer is seeking to meet LEED, Green Globe or other certification requirements or simply wanting to improve the energy performance of their building, Star offers solutions to reach many environmentally friendly construction goals.

Become an Authorized Star Builder Today

Making the decision to become an Authorized Star Builder is not a difficult one when you examine the benefits and opportunities available to you. Aligning yourself with Star, one of the most experienced and trusted names in the industry, is the first step toward making the coming years the most successful your company has ever experienced.
