

Endwall Column attachment at Low Eave located between Eave Strut and Purlin

SHT. NO. EF09106

DATE Dec '12 REV. NO. 01

Notes:

- 1.) See AC00918 / AC00922 for Jamb/Support Column attachment when located at same Purlin space (or adjacent Purlin space) as Endwall Column.
- 2.) Bridge Channel may span multiple Purlin spaces when required.
- 3.) Wind Edge Strip Purlins, when required, do not attach to Bridge Channel.
- 4.) Purlins, Purlin Strut and Eave Strut extends past Bridge Channel flange when "Optional" Overhang or Facade is required at endwall.
